— *see also* Lockey, E., Al-Janabi, N., Gonzalez-Lavin, L., and Ross, D. N.
Allograft heart valves, sterilization and preservation of, antibiotic mixture for, 398
Allotransplantation, block, of both lungs with pulmonary trunk and left atrium under cardiopulmonary bypass in dogs, 415
ALTMAN, D. B., ANAGNOSTOPOULOS, C. E., and KITTLE, C. F.: Hypoplasia of the left first rib in a child with Down's syndrome and an endocardial cushion defect, 100
Alveolar pores of Kohn, electron microscopic study in mice, 433
Alveolitis, fibrosing, cryptogenic, prognosis of, 535
  fibrosing, due to inhaled particles, incidence of lung cancer in (P), 511
Aminorex and amphetamine, acute and chronic effects on pulmonary and systemic haemodynamics in calf, 127
Aminorex—contd.
  and amphetamine, oral, haemodynamic effects in unanaesthetized beagle dogs, 120
Amyloidosis, pulmonary, with impaired gas transfer, 625
  tracheobronchial, diffuse, primary, 620
ANAGNOSTOPOULOS, C. E., *see* Altman, D. B., Anagnostopoulos, C. E., and Kittle, C. F.

ANDREWS, J., *see* Price, H. V., Andrews, J., and Laurence, K. M.
Aneurysm, dissecting, of ascending aorta and single coronary artery after resection of coarctation of aorta, 90
  of aortic arch, resection and replacement and protection of nervous system in, 239
Annulo-aortic ectasia, surgery of, 52
Antibiotic mixture for sterilization and preservation of allograft heart valves, 398
Antidiuretic hormone secretion, inappropriate, in oat-cell carcinoma of bronchus, 640
Aorta, coarctation of, and mitral incompetence, congenital, two cases with surgical treatment, 729
  coarctation of, resection of, single coronary artery and dissecting aneurysm of ascending aorta after, 90
Aortic arch, aneurysm of, resection and replacement and protection of nervous system in, 239
  arch, interruption of, 93
  disease, open-heart surgery with ischaemic arrest (with and without coronary artery perfusion) in, serum aspartate transaminase changes after, 102
  obstruction, lower, silent, 586
  root conditions, surgery of, 52
  valve, allograft, sterilization and preservation of, antibiotic mixture for, 398
  valve, heterograft, porcine, formalin-treated, in mitral position, pathology of, 401
  valve, homograft, fresh, viability of, quantitative assessment of, 83
  valve, homograft, mounted, mitral valve replacement with, 304
  valve, homograft, post-mortem shrinkage of, 312
  valve, mitral valve and ascending aorta, replacement with coronary transplantation in child with Marfan syndrome, 58
Aortosubclavian Dacron bypass prosthesis in treatment of acute subclavian steal syndrome after blunt thoracic trauma, 492
Asbestos, desquamative interstitial pneumonia associated with, electron microscopic studies in, 324

Aspergillomas, pulmonary, treated with corticosteroids, 156
Aspergillosis, pulmonary, caused by *Aspergillus flavus*, 33
Aspergillus terreus associated with lung disease of ankylosing spondylitis, 604
Aspiration biopsy of lung lesions under x-ray control, histological correlation in (P), 511
Asthma, bronchial, chronic, unilateral bronchopulmonary lavage in (P), 508
due to chemical dusts, vapours and fumes (P), 508
lung centile charts in (P), 261
metabolic and ventilatory changes during and after exercise in, 718
sputum protein composition in, effect of disodium cromoglycate, 726
ventilatory function in, significance of effect of beta blockage on, 572
ASTIN, T. W., *see* Darke, C. S., and Astin, T. W.
Atrial appendage, left, herniation of, due to partial left pericardial defect, 246
septal defect of inferior vena caval type, closure of, complications after, 754
septal defect, results of surgery in patients aged 40 and over, 577
Atrioventricular valves, total prosthetic replacement of, in dog, 105
Atrium, left, myxoma of, in childhood, presentation with emboli and diagnosis by ultrasonics, 759
right, calcified mass in, report of case, differential diagnosis and relation to myxoma, 373

Bromhexine, clinical trial in severe chronic bronchitis during winter, 429
Bronchial adenoma, 442
asthma, chronic, unilateral bronchopulmonary lavage in (P), 508

Bronchial—contd.
brush biopsy, evaluation in diagnosis of peripheral pulmonary lesions, 631
carcinoma, ^{67}gallium scan in diagnosis of (P), 507
carcinoma, management by segmental resection, 70
carcinoma, oat-cell, hyponatreamia associated with, aggravation by intravenous cyclophosphamide, 640
carcinoma, pulmonary function in, effect of lung resection (P), 511
carcinoma, pulmonary resection with provisional but unsubstantiated diagnosis of, 143
clearance, cough and sputum (P), 510
mucous glands, oncocytes in, 181
reconstruction and dermal grafts, long-term review of (P), 509
smooth muscle and prostaglandins (P), 263
stricture after blunt thoracic injury, successful late repair of, 769
Bronchitis, chronic, severe, bromhexine in, clinical trial during winter, 429
chronic, sputum in, neuraminic acid content of, 643
Bronchodilatation (P), 262
Bronchodilator drugs, beta-adrenergic receptor stimulant, side effects of (P), 262
drugs, respiratory assessment of (P), 263
Bronchography, neuroleptanalgesia technique for, 334

Now true life-size pictures with Scinticamera IV

and good positional resolution, faster time resolution and an extended accessory range

The desk console of the new gamma camera houses a full life-size X-ray recording system. In addition variable persistence display is available for immediate viewing of the scintigraphic field of view and interfacing can be provided to on-line computers.

Scinticamera IV is designed for use by clinicians and particular attention has been paid to uniformity across the whole of the 28 cm. diameter field.
